Health

Project Title

Wabag Provincial Hospital

Location

Wabag, Enga, PNG

Client

Shepley Bulfinch

Project Type

Hospital

Year Completed

On going

Project Description

The new Enga Provincial Hospital is a landmark development at Wabag. This iconic complex of buildings will greatly enhance the delivery of health services in the region.

The hospital consists of predominantly single with some two storey structures that blend with the topography and interact with the extensive landscaping.

Kramer Ausenco is providing comprehensive engineering design and documentation services through the whole suite of engineering disciplines.

Total Number of Beds

300
