

## Factsheet

# Telekom Haus Extension

Architectural, Interior Design & Project Management

### Project Title

Solomon Telekom TH2 Refurbishment

### Location

Honiara, Solomon Islands

### Client

Solomon Telekom Company Ltd

### Project Type

Refurbishment to existing old National Bank of SI

### Year Completed

August 2014

### Project Description

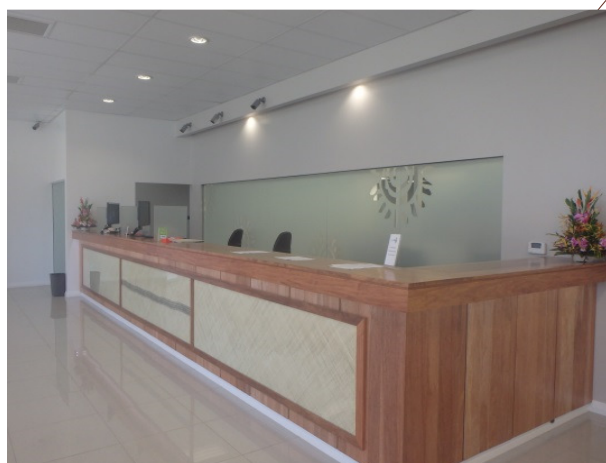

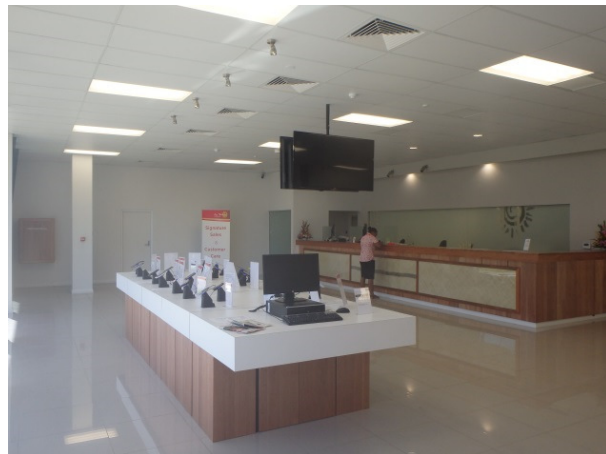

Kramer Ausenco (SI) Limited were engaged to do the structural assessment and design, architectural and interior design and project management of the refurbishment to the existing National Bank of Solomon Islands which was to accommodate as the new office for the Sales & Marketing staff of Solomon Telekom Company Ltd.

The "modern & local" theme was the main emphasis behind the architectural and interior design aspects of the building. The new façade which encompassed the proposed refurbishment also married to the adjacent existing Telekom office which now accommodates the Our Television office.

Kramer Ausenco also undertook structural analysis of the existing building prior to the refurbishment.
