### Project Description

Bomana Police Housing Developing is a major sub-division development initiated by the Royal Papua New Guinea Constabulary to provide high quality housing for National Capital District Police Officers. It is part of the RPNGC Housing Program.

Kramer Ausenco was appointed to provide civil engineering design and documentation, site investigation, and construction monitoring during construction stage of the project. The project offers 150 high quality modern police houses. This is the largest sub-division development project Kramer Ausenco has undertaken in Papua New Guinea.

### Project Role
