

Factsheet

Kavieng Airport Upgrading Works

Aviation

Project Title

Kavieng Airport Upgrading Works

Location

Kavieng, New Ireland, PNG

Client

AusAID

Project Type

Runway and Terminal Building
Extensions

Year Completed

1999

Project Description

Kavieng Airport Upgrading Works involved the Design/Documentation and Construction of Runway extensions (14,120 sq.m), Terminal Building extensions and modifications (220 sq.m), Apron extension (9,940 sq.m), Carpark (25 vehicles) small access road and the extension of the Airfield lighting to the SE of the Runway.

Kramer Ausenco provided the Design and Documentation services for construction by Lakaka Civil and Construction under an AusAID Design and Construct Contract.

The Contract was the first AusAID Design and Construct Contract in PNG and the South West Pacific.
