

Factsheet

Kookaburra St Over Pass

Roads and Highways

Project Title

Kookaburra St Over Pass

Location

Port Moresby, PNG

Client

National Capital District Commission (NCDC)

Project Type

Roads and Highways

Year Completed

On-going

Project Description

Kramer Ausenco was endorsed by Opus to provide site inspection monitoring services throughout the construction phase of the project. We provide compliance reports to Opus after every inspection.

The Kookaburra Street Over Pass is a K160 million project and is the first of its kind in Papua New Guinea. The 4-lane over pass connects Sir John Guise Drive to Hubert Murray Highway with a flyover at the Erima Junction, a total length of 2.2km at a maximum height of about 5.5m. This over pass will help in minimizing traffic congestion in Port Moresby.

Project Role

- Structural Engineering
- Civil Engineering
