

Factsheet

Morea Tobo Road Upgrade

Roads & Highways

Project Title

Morea Tobo Road Upgrade

Location

Port Moresby, PNG

Client

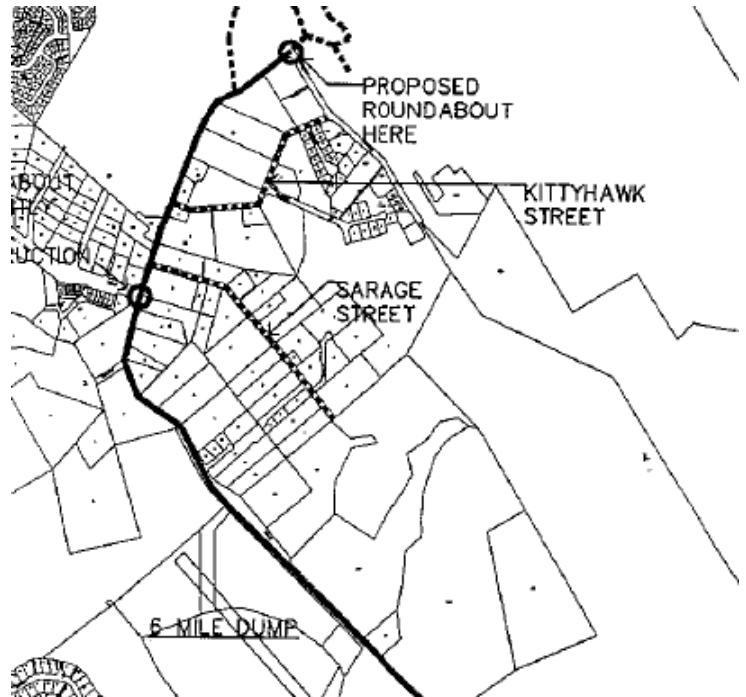

PNG National Government

Project Type

Roads and Highways

Year Completed

On-Going

Project Description

Kramer Ausenco was commissioned by Hebou Construction for the design of the Morea Tobo and associated roads under a design and construct contract by NCD. Kramer Ausenco has carried out field investigation, detailed design and documentation of the road and stormwater drainage structures based on geotechnical and survey results. Weekly monitoring site inspections are being carried out by our registered engineers.

This project covers the Morea Tobo road along with Kittyhawk and Sagara Streets. The Morea Tobo Road Upgrade is a K57 million project initiated by the PNG National Government. 1.2km of this road will be 4-lanes while the rest of the associated roads, (4.7km) will be 2-lanes.

Project Role

- Project Management
- Civil Engineering
- Structural Engineering
- CAD Services
