Paiam Township

Commercial, Residential and Industrial

Project Title

Paiam Township

Location

Pogera, Enga, Papua New Guinea

Client

Pogera Development Authority

Project Type

Major Township Subdivision

Year Completed

1999

Project Description

This project was for Paiam Management Company and was funded by the giant Porgera Joint Venture Mine Company through the tax credit scheme.

The project included design of civil and hydraulics services and Kramer Ausenco was involved in the construction management contract which included the hire of all the plant and labour together with the procurement of all materials on behalf of the client for the project and supervision of the project.

It included the sealing of the township roads, drainage system, water and sewerage reticulation and treatment systems. All supervision and contract administration was carried out by the

Kramer Ausenco staff, which was set up on site as a fully manned office.
