

Factsheet

SINPF Building Asbuilt Plans

Commercial, Residential and Industrial

Project Title

SINPF Building As built Plans

Location

Point Cruz, Solomon Islands

Client

Solomon Island National Provident Fund

Project Type

Commercial

Year Completed

2009

Project Description

Measure up and drawing of existing floor plans for Anthony Saru building, NPF building, NPF Plaza & Komi Fera Pako building

Kramer Ausenco Role:

- Measure and draw up detailed plans of each floor of each building, showing the layout of tenancy partitions, internal partitions including doorways, columns, and major immovable furniture. The plans need to show the thickness of partitions, and identify those partitions which are floor-to-ceiling, and those which do not go to the full height of the ceiling
- Draw up "reflected ceiling" plans to show the exact size of the ceiling panels, and the location of air-conditioning registers and return air grilles and light fittings

Total Floor Area

10,151 sqm

Project Role

- Civil Engineers
