

Factsheet

Highlands Highway Bridges Inspection

Bridges

Project Title

Highlands Highway Bridges Inspection

Location

Highlands Highway (Lae-Mendi), PNG

Client

EOS Joint Venture

Project Type

Bridges Crossings

Year Completed

2010

Project Description

Kramer Ausenco was commissioned by EOS Joint Venture to assist the PNG LNG Bridge & Road Inspection Project Team that was performing structural inspections and assessment of road geometry of the Highlands Highway of PNG from Lae to Mendi.

Kramer Ausenco with its local presence in the country for +30 years had skilled national engineers who carried out the assessment with colleagues from the client. The presence of our National Engineers along the highway and their daily liaison with the local people proved the assignment a success.

Kramer Ausenco completed this project on time and within budget without compromising safety of all personnel involved. A report was presented to the Client.

Total Bridges

84

Project Role

- Civil Engineers
