On-Going

Project Description

Kramer Ausenco was commissioned by Western Highlands Provincial Government to provide professional management and consultancy services for the Mt Hagen City Roads Project.

Kramer Ausenco is managing, administering and monitoring the tendering, procurement and design of this project.

The project involves the upgrading of approximately 13km of 4-lane roads, 7km of 2-lane roads and associated intersections, upgrading of the town sewerage system and pedestrian underpasses as well as a new central bus station.

Project Role

- Project Management
- Design Review
