

Factsheet

Toyota Port Moresby

Commercial, Residential and Industrial

Project Title

Toyota Port Moresby

Location

Badili, Port Moresby, PNG

Client

Toyota Tsusho South Pacific

Project Type

Commercial

Year Completed

2011

Project Description

Initially Client just wanted an upgrade of their Bond Yard (new fence & sealing) and Pre-delivery Inspection Area. However, further variations included construction of a Washbay and Mechanical Workshop within their complex. Bond Yard and PDI upgrades were separable portions having different BOQ but managed under one main contract.

Bond Yard was completed first and PDI Area (hardstand, buildings) were completed later and handed over to Client.

Kramer Ausenco was commissioned to design, document, tender and manage projects through to completion and handover.

Project Role

- Civil Engineering
